

Community Equipment Loan Service in Dundee and Angus

Supporting you to live independently

What is the Community Equipment Loan Service?

The Dundee and Angus Joint Community Equipment Loan Service is a partnership between Dundee and Angus Health and Social Care Partnerships, Dundee City Council, Angus Council and NHS Tayside.

The Loan Service provides, delivers, installs, repairs, maintains and recycles a range of equipment to help people of all ages living in Dundee and Angus to live independently.

We also provide a technical advice service and carry out risk-assessments with medical and care professionals, both in-store and in people's homes.

What Equipment Do We Supply?

The type of equipment we supply includes:

- Toilet products such as toilet seats, frames and commodes
- Mobility products such as walking sticks, walking frames and standing equipment
- Pressure relief products such as specialist mattresses and cushions
- Lifting and handling products such as hoists, transfer boards and lifting belts
- Specialist beds such as hydraulic and electric beds
- Specialist seating such as adult and children's specialist chairs
- Bathing/showering products such as bath seats, rails and shower chairs.

How Can I Access the Service?

To borrow equipment from us, you need to have an assessment of your needs.

Professionals who can carry out equipment assessments include district nurses, occupational therapists and physiotherapists. We use Eligibility Criteria to decide your eligibility for equipment.

Once the assessment is complete, we will deliver and install the equipment if assessed as required.

Are there any Charges?

There is no charge for our service. Equipment is provided free on a 'permanent loan' basis.

How Do I look After My Equipment?

Our leaflet "How to look after your equipment" provides information about cleaning your equipment, how to report any concerns, what to do if your equipment needs changed and what to do if your equipment is no longer needed?

You will be provided with this leaflet if you are provided equipment.
